## **I Corinthians 16:9 “For a great door and effectual is opened unto me, and there are many adversaries.”**

June 12, 2017

With every open door, there always to be adversaries. Unfortunately, the two people that had been saved through the website and so joyfully thanked the Lord for leading them to our church have left. In making preparation for their baptism I had them to wait a bit before I baptized them. I told them this was for them to confirm that this was the Lord's leading and that they were sure that He wanted them to join the ministry here. They took this to mean that I did not trust them and therefore this was not the church for them. I wish them the best and I am asking the Lord to lead them and guide them for their future.

I was finally able to complete a gospel tract. It is amazing how the gospel is so simple and yet sometimes it seems hard to condense it to a simple tract without compromising any key components. I have attached a copy in case it could be a blessing to you. Our handful of people have already passed out the first order and I have ordered more today.

One of my neighbours in my apartment building died last month. I have witnessed to her several times through the years here. She was a known drug user; legal and illegal. The Lord really burdened my heart for her the first of last month and I witnessed to her again and when I would pick up things for her at the store as she was in a wheelchair I put gospel tracts in her bags. She was found dead in her apartment. I don't know if she got saved but I rejoice in seeing how God, who obviously knew her end was coming reached out to her in grace one last time.

The need to pray for labourers in Canada is greatly intensifying. Recent changes in government now make it possible for the government to remove a child from the home if a parent rejects the child's gender choice. For example if you son said he wanted to be a girl and you said no because of the what the bible says that could be considered child abuse and your child could be removed. The darkness here in Canada is absolutely unbelievable!! Also, in the ministry here we could potentially lose two families as due to the expense of the city they may need to sell their homes and move outside the city to alleviate financial pressure. We lost our first married family last year due to that. Please pray for labourers!!

There is no greater time than now to be a living witness for Jesus Christ. I rejoice in new opportunities every day. The reception unfortunately is not what I wish it would be but glory to God I still love to tell the story. Thank you once and again for your faithful prayer and financial support.

Because Jesus has the words of eternal life,

Reiner L. Harper
